AN PHAT HOLDINGS
BUILDING A GREEN FUTURE

Founded in 2002, having spent more than two decades of building and development with relentless efforts, An Phat Holdings has successfully grown from a small factory named Anh Hai Duy to a leading corporation in Southeast Asia in high-tech and environmentally-friendly plastic. We have gradually affirmed its position in the market and achieved outstanding business achievements.

Up to now, An Phat Holdings has grown in many industries and built a leading business ecosystem in the plastic field with many of subsidiaries and as well as manufacturing plants in the system.

An Phat Holdings is also proud to be one of the few enterprises in the world and the first in Vietnam to hold a patent on synthesizing biodegradable plastic materials that meet the world's most stringent standards.

As proof of the rapid innovation and creativity, An Phat Holdings and its subsidiaries have continuously recorded positive results in the domestic and international markets.

An Phat Holdings' products have been presented in over 80 countries and territories such as the United States, Europe, Japan, France, etc.

AN PHAT HOLDINGS

STRATEGIC
VISION

VISION

Becoming the leading high-tech and environmentally friendly plastic group in Southeast Asia.

MISSION

Promoting and supporting Vietnamese enterprises to develop together, enhancing the position of Vietnamese high-tech and eco-friendly plastic brand.

BRAND POSITIONING

The group pioneers the creation of a value chain industrial high-tech and eco-friendly plastic, built and develop a sustainable business ecosystem.

CORE
VALUES

The core values of An Phat are: "Innovation – Creativity", "Solidarity – Discipline", "Humanity – Sharing", to achieve "Efficiency – Sustainable".

This value is obvious in all that the group does, giving An Phat Holdings the inner strength to produce the best products and services while also assisting businesses in accomplishing significant goals.

In particular, An Phat Holdings has shared this value with shareholders, partners, and customers as the Group has grown.

DEVELOPMENT
HISTORY

2005

The first packaging plant of the Group went on production with capacity of 13,200 tons/year at Nam Sach IZ, Hai Duong.

2002

The former of An Phat Holdings, Anh Hai Duy was established.

2007

Anh Hai Duy changed its name into An Phat Plastics & Packing JSC, charter capital VND 30 billion, head office at An Dong Industrial Park, Nam Sach District, Hai Duong (Now Hai Phong City).

2010

An Phat Plastics & Packing JSC changed its name into An Phat Plastics & Green Environment JSC.

2009

Establishing An Tien Industries Joint Stock Company (formerly known as An Phat - Yen Bai Plastic & Mineral Joint Stock Company).

2013

The production scale of An Phat Holdings achieved outstanding milestone with total production capacity of 57,000 tons/-year.

2017

An Phat Holdings became the No.1 high-tech plastic enterprise in Vietnam. Also in this year, An Phat Holdings transformed into Group model, establishing more member companies and completing its business ecosystem.

2018

An Phat Holdings became the leading high-tech, environmentally friendly plastic corporation in South East Asia.

2019

An Phat Holdings changed the name An Phat Plastics and Green Environment JSC to An Phat Bioplastics JSC.

2020

On 28th July 2020, An Phat Holdings (ticker symbol: APH) was officially listed on HCMC Stock Exchange (HoSE).

An Phat Holdings moves to a new stage of development, investing in compostable raw materials and finished products, packaging, engineering and interior plastics, precision engineering and molds, raw materials and chemicals for plastic industry, transportation, industrial real estate, striving to become the leading company in the field of high technology and environmentally friendly plastic production in Southeast Asia.

2025 – 2030

An Phat Holdings focuses on expanding production in packaging, engineering plastics, building material plastics and industrial real estate,...

  950 S Coast Dr. Costa Mesa, Suite 178, CA 92626, USA

COMPOSTABLE COMPOUNDS

AS A COMPREHENSIVE SOLUTION TO SOLVE THE PROBLEM OF WHITE POLLUTION, COMPOSTABLE MATERIALS CAN COMPLETELY REPLACE TRADITIONAL PLASTICS IN ALMOST APPLICATIONS.

Compostable resins have obtained many prestigious international certificates

Polymer PBAT

Polymer PBAT (Polybuthylene co-adipate co-terephthalate) owns special features such as great tensile and tear strength, suitable for food-contact products and good processability.

Polymer PBS

Polymer PBS (Polybuthylene Succinate) can be applied for coating, injection molding and extrusion to produce sheet, film and fiber (fishing net).

Polymer PBST

Polymer PBST (Polybutylene succinate-co-terephthalate) can be mainly used for film blowing to produce shopping bags and films. It has high bio-based percentage and low melting index.

Bio-compound

Bio-compound takes many advantages of high impact resistance, durability, and flexibility as well as ability to be used for diversified finished products such as mulch films, shopping bag, single-use gloves, 3D printing filament, etc.

COMPOSTABLE PRODUCTS

aneco COMPOSTABLE IS A COMPOSTABLE PRODUCT LINE MADE FROM COMPOSTABLE MATERIALS AND ABLE TO DECOMPOSE INTO CO_2, WATER, AND ORGANIC HUMUS IN NATURAL OR INDUSTRIAL COMPOSTING CONDITIONS.

THE BIODEGRADATION OF aneco COMPOSTABLE PRODUCTS

Compostable bags are used

Buried to the soil

Microorganisms in the soil produce enzymes that break down the polymeric chains into smaller molecules

The polymer molecules become smaller and smaller until they are completely digested by microorganisms.

Finally transforming into **CO_2**, **water**, and **humus** that is good for plants

aneco COMPOSTABLE IS A VIETNAMESE COMPOSTABLE PRODUCT LINE MEETING MANY INTERNATIONAL STANDARDS

OK compost INDUSTRIAL | OK compost HOME S0584 | industrially compostable 7P2088 | Product Carbon Footprint DIN Geprüft

- **OK Compost Industrial:** Issued by TUV Austria, certified to decompose at least 90% into CO_2, water and organic humus under industrial composting condition.
- **OK Compost Home:** Issued by TUV Austria, certified to decompose at least 90% within 1 year at temperatures below 30°C to CO_2, water and organic humus under natural burial conditions.
- **EN13432:** European certification for the ability to decompose at least 90% after 180 days.
- **ASTM 6400:** US certification for the ability to decompose at least 90% after 180 days.

"GREEN" PRODUCTS SETS SAIL TO THE WORLD WITH AMAZON

In 2021, AnEco lauched its high-quality compostable products on Amazon's e-commerce platform.

AnEco's products, such as table covers, trash bags, and more, consistently ranked among the best-selling compostable products on Amazon due to their innovation.

AnEco's success clearly demonstrates the efficiency of the "green growth" strategy that An Phat Holdings has pursued.

RESEARCH

AND DEVELOPMENT ACTIVITIES

Being an experienced manufacturer and prestigious exporter, An Phat Holdings always ensures the production process to meet high standards with quality management systems such as ISO 9001:2015, ISO 14001:2004, ISO 22000:2005. All the company's processes focus on quality control, labor safety, environmental protection, and operational efficiency, aiming to well fulfill its social responsibility and promote green production.

An Phat Holdings' Research and Development Centers have carried out researches to improve and enhance product quality, reduce waste rates, increase the reuse of materials, and save energy in production. In particular, the R&D Centers have achieved many achievements in research, development, and improvement of compostable products such as bags, cutlery, straws, gloves, agricultural mulch film, fishing nets.

The R&D Centers also promote the research and expanding the Group's product line, further develop environmentally friendly and high-tech plastic products such as compostable products, engineering plastics, plastic components for the automotive – motorcycle, electric – electronic industries.

In recent years, An Phat Holdings has cooperated with many leading experts in Vietnam and in the world in the field of bioplastics such as Novamont (Italy), Bio-eco (Thailand), TLC, Lotte Chemical (South Korea), Fortrec (Singapore) to test, develop products and enhance the competitiveness in the market.

CORPORATE

CULTURE

"PEOPLE ARE THE FOUNDATION OF ANY COMPANY'S SUCCESS."

People are the vital factor to build up and develop the corporate culture. At An Phat Holdings, we gradually form corporate culture by building a strong team. The 9G and 9T sets are the guidelines for the whole Group for develop personal and company culture.

GENE OF AN PHAT PEOPLE

"Gene of An Phat People" is the goal for all employees to strive and align with Company's common culture, then forming an united and strong team.

COMMUNITY
ACTIVITIES

Through the establishment and development process, as well as pursuing profit goals, we always set "Economy – Society – Environment" to be 3 important factors that must be balanced to develop sustainably.

We always strive to grow sustainably as well as to contribute in the development of the country's economy, share the social responsibility, and protect the environment.

An Phat Holdings is committed to investing, researching, and producing products that are 100% compostable and eco-friendly. We also actively engage in social responsibility, supporting local communities to foster socio-economic development, diplomacy, and investment promotion for many years.

Some significant examples include: donating VND 31.35 billion, equipment, and essentials to fight the COVID-19 pandemic; saving 1,000 tons of agricultural products for farmers in Hai Phong City; supporting the poor; promoting education; and collaborating with the Ministry of Health and the Ministry of Natural Resources and Environment to reduce plastic waste and protect the environment.
